November 12, 2013

Anthony,

I am writing to let you know how pleased I am with the tables that we purchased from Longo Associates, Inc. These tables were purchased as part of our building project for our new Aquatics lab. They are beautiful and functional and are the centerpiece of this room. The students are enjoying using the tables and the teacher has remarked how easy they are to keep clean. Many groups have walked through our facility and have commented on these lab tables, the functionality of them as well as how attractive they are.

From the very beginning I found your company easy to work with and attentive. I was the first point of contact with your company and every person I spoke to provided me with the information I needed and if they did not have the answers they forwarded me to someone that did. Our architect and engineers all commented on how accommodating your company was and how easy the company was to work with. We needed to adjust the size of the lab benches and it was done in accordance with the design of the room but did not compromise the functionality of the tables. When it came to delivery and installation your company provided the goods on time and installed them without issue. All of these things are greatly appreciated when one is taking on a building project of this magnitude.

Again thank you for making a great product and feel free to use me as a reference any time.

Lori Pelletier, M.Ed.  
Vocational Coordinator  
Animal and Marine Science Department
